

Lesson Plan

"Doodle Hands"

OBJECTIVE:

Create a unique and colorful drawing by doodling inside a tracing of your own hands.

MATERIALS:

- Paper
- Pencil
- Colored Pencils, Markers or Crayons

STEP 1:

Begin by placing one of your hands on the paper. You can place it anywhere you like. Once you are happy with the placement; go ahead and trace your hand in pencil. Be sure to keep the pencil straight up and down while tracing.

STEP 2:

After tracing; use a pencil to "doodle" inside the hand. Doodling should only be done with shapes, patterns and lines. Stay away from recognizable objects, logos, letters, characters etc.

STEP 3:

When your pencil doodle is finished; it's time for color! Take advantage of every opportunity to blend colors and shade with them from light to dark. When your hand is completely filled with colorful designs; you are finished!
