

5 NEW MURALS

COMING TO DOWNTOWN
HOLLISTER!

ABOUT VISIÓN ART FEST

The San Benito County Arts Council is excited to launch its inaugural *Visión Art Fest* (VAF) – a community mural festival designed to uplift artists, beautify the City of Hollister, celebrate local cultural heritage and support our creative economy through the power of public art. Five artists or artist teams will be commissioned to paint 5 vibrant murals in 2026, adding to the beautification, sense of place and community belonging in our beloved city.

VAF is made possible in part through a grant from the *California Arts Council*, our state arts agency.

We hope you will join us and be a part of this exciting new project!

MEET THE ARTISTS

Joey Rose is a California-based muralist with a passion for creating site-specific work by showcasing the natural world around us.

MJ Lindo 's creative journey was sparked by her experiences as a young child. Shaped by the civil war in Nicaragua, her family soon relocated to Toronto, where she found a fresh curiosity and inspiration in the city's subway murals that spawned a lifelong dedication to art. Now, as a full-time muralist in the Bay Area, she and her husband, Joshua Lawyer, operate under the name Rough Edge Collective

Joshua Lawyer was raised in East Palo Alto and grew up in a strong Tongan culture, rich in tradition. Although art was deeply woven into that culture. It was through the 1990s Bay Area street art scene—and seeing public spaces transformed—that Joshua found his life's passion.

Venazir is a multi-awarded Filipina muralist and visual anthropreneur who weaves stories of her ancestral lineage into large-scale public art, using a signature red thread to connect cultural memory with diasporic and multicultural communities. Her practice has reached communities across the Philippines, the United States, and Europe through murals, exhibitions, and artist residencies.

Angelica Navarro is a Mexican-American artist inspired by the colorful patterns, architectural forms, and festive traditions of her Mexican heritage, her work often reinterprets these motifs in a unique trompe-l'œil embroidery style-creating the illusion of hand-stitched designs directly on the wall.

Eric Skotnes is a Los Angeles-based urban artist known for interconnecting disparate styles into an aesthetically integrated whole. Skotnes creates murals and works on canvas that juxtapose his wild style graffiti with figural renderings of classical sculptures from Antiquity.
